PALACIO DE LUCES, A UNIQUE PLACE TO CELEBRATE MEMORABLE EVENTS

It is an old **Palace from the 16th century, restored and located in the lovely coastal town of Lastres. It is surrounded by a privileged natural setting**, among forests of yews, beeches, cherry trees, pines and hollies, only a short distance from the sea. It also has spectacular views over the Sueve Mountain Range, the Picos de Europa Mountains and the Cantabrian Sea. The hotel includes over 13.000m² of gardens in the middle of nature, between sea and land. Oriented towards rest and the wellbeing of its guests, this hotel is the ideal place to break away from the daily routine, far away from noise and pollution.

The location of the Palace is enviable. It is situated a scant 10 minutes from the beaches of La Isla, Lastres y La Griega, 40 minutes from Oviedo, 25 minutes from Gijón, 50 from the Asturias Airport and 60 from Covadonga.

The hotel has 44 rooms between 33 m and 51m² Deluxe, Junior Suites with or without gardens, Suites and CoolSuites. Every of them has spectacular views from the palace gardens to the Lastres Bay, the Sueve Mountain Range, the Cantabrian Sea and the Picos de Europa Mountains.

The hotel restaurant, Tella, mixes the most representative things from the Asturian "Landscape and Gastronomy". The big bay window shows us an incomparable painting of the marvellous landscape of Asturias. **The chef, Francisco Ruiz**, offers a gastronomy with Asturian roots and an influence from

the Americas. Traditional products from the area prevail, such as the excellent and famous fish and seafood from the Lastres Bay and the exquisite meats from the pastures of the Sueve Mountain Range.

This wonderful palace, organises memorable experiences for its guests, such as a hike to the Pienzu Peak, considered the highest mountain in Europe so close to the sea; surfing lessons; wine tastings and pairings; a visit to an anchovy factory or the surrounding cheese makers; a fishing outing with local sailors, an excursion to Lastres and many more experiences. All of them are local and customised. Our Reception team will organise the experience exclusively for every guest.

The hotel also has a **16th-century chapel**, several event spaces, an elegant common room with a pool table and fireplace, a charming lobby bar, a 80 m² gym and several terraces to enjoy the surroundings and its own vegetable garden.

The spa offers a heated pool with jets and chromotherapy connected to the garden, contrasting showers, relaxation beds, panoramic sauna, treatment room for massages and a Turkish bath with chromotherapy. The facilities are meant to offer guests a personalized and unforgettable experience.

Palacio de Lucés, a place to take a deep breath surrounded by peace and nature.
